08 CORE SYSTEM – SHAREHOLDER PROFIT SHARING MODEL

LEGACY PLATFORM	VS	UF9 SHAREHOLDERS
COMMISSION Income mainly from promotion commission, essentially sales-based.		**PROFIT SHARING** Participate in overall company profit distribution, not just promotion income.
FIXED COMMISSION RATIO Fixed commission ratio limits growth potential.		**CONTRIBUTION BASED DIVIDEND** The more you contribute, the higher your dividend, reflecting fairness and growth.
NO COMPANY PROFIT PARTICIPATION Agents only receive promotion returns, no share in company profits.		**PARTICIPATE IN NET PROFIT** Shareholders share company net profit, aligned with the company's interests.
INCOME CAP Income depends on personal promotion ability and resources, with limited growth.		**GROWTH WITH COMPANY EXPANSION** Income grows as the company expands, no fixed ratio limits.

09 DAILY SHAREHOLDER DIVIDEND CALCULATION FORMULA

(Personal Turnover ÷ Company Turnover) × Company Net Profit × Shareholding
= Personal Commission Dividend

EXAMPLE CALCULATION

PERSONAL TURNOVER
10,000,000

÷

COMPANY TURNOVER
100,000,000

X

COMPANY NET PROFIT
2,000,000

---

x Shareholding (50%)

Final Profit Distribution: 100,000
